Farmland Soils: CT DEEP (2007)
 Farmland Soils includes land that is defined as prime, unique, or farmland of statewide or local importance based on soil type, in accordance with the Code of Federal Regulations, CFR title 7, part 657. It identifies the location and extent of the most suitable land for producing food, feed, fiber, forage, and oilseed crops and is available for these uses.

Farmland Soils can be used to identify the location and extent of lands that have productive soils.
